## Who Does Your Printing?

All business houses need more or less printed matter, all of which is within the possibilities of the local printer. Yet how prone many are to pass up the home printer and let the orders go to city offices which have no interest whatever in rural communities except to get printing orders and the cash to pay for them. Business men, remember that the home paper is constantly promoting the interests of the home community and you owe it to yourself and your local paper to back up these efforts by at least having your printed matter done locally.

## LITTLE ITEMS OF LOCAL INTEREST

Miss Irene Grenier spent the week end visiting with friends in Carbon.

**FOR SALE**—Jas. Stout, of the McCulloch's Limited, who is preparing to leave here, is offering his entire lot of furniture and household goods at private sale.

Ole Johnsen left last Thursday for his home in Victoria, after spending the past month or so looking after his business interests in Carbon and district.

Dr. McFarlane took Miss Catherine Hay to the Holy Cross Hospital, Calgary, on Monday, where she was operated on for appendicitis.

Jack Toombs and True Olive motored into Calgary on Friday and returned Saturday.

Jos. Connolly, J. N. MacDonald and E. J. Rouleau were business visitors to Swalwell last Saturday.

Geo. McNeil was a business visitor in Carbon on Monday.

Miss Mae Williams returned Saturday evening after spending the past week in Calgary.

Dr. and Mrs. W. J. Sharpley and son John, of Calgary, are the guests of Mr. and Mrs. G. W. Malton.

The C.G.I.T. girls will hold a tea in their club room on Saturday afternoon, Oct. 29.

Word was received on Monday that Harry Irwin's car had overturned near Drumheller late Sunday night and that Irwin himself was pinned beneath the car. When a passerby noticed the overturned car he investigated and found Irwin beneath the wreck. He was immediately taken to the Drumheller hospital and it was found that he had severed an artery in his wrist and had not help arrived when it did, Irwin probably would have bled to death.

Mr. and Mrs. Edwards motored into Calgary on Tuesday to take their son, Billy, who is suffering from an attack of appendicitis, to the Holy Cross hospital. He was operated on immediately and is getting along splendidly.

R. B. Wilkinson was a business visitor in town this week, coming

in on Tuesday.

Rev. R. H. Lytle of Edmonton, spent a couple of days in Carbon this week, coming down for the Masonic meeting here on Monday.

Lindsay Elliott was a visitor in Carbon last Friday.

T. King and J. Becker have new Federal trucks, and M. Robinson, Mr. Beverick and Ed. Becker have new Chrysler sedans.

Mr. and Mrs. R. C. Barr motored to Calgary on Tuesday and returned on Wednesday.

Mr. and Mrs. W. Carpenter and son, of Rockyford, visited with Mr. and Mrs. H. A. English on Sunday.

Mr. and Mrs. Nicholson of Calgary and Mrs. Byer of Vancouver, visited over the week end with Mr. and Mrs. G. W. Malton.

The Curling club are putting on a big dance in the Farmers Exchange hall on Thursday, November 10. Mrs. Trainor's 4-piece orchestra of Calgary will furnish the music.

## Swalwell

We understand that our section forman at Swalwell is leaving for a new post at Chinook.

We hear that a brother in law of Mr. W. Kerr has been burnt out at Millett.

Mr. and Mrs. Fred Gardner left by train for Calgary and some are expecting them to motor back in their newly acquired car.

Mr. and Mrs. Ralph Purcell have left for the Peace River country, shipping their flock at the end of last week.

Will readers please remember that the Swalwell Ladies Aid are putting on their chicken supper on November 2nd. Supper from 6 to 8, to be followed by a Pollyanna Recital by Kathleen Greene, the 12 year old child elocutionist of Calgary. Tickets for supper and entertainment, adults 75c, children 35c.

Alvin Baker was rushed to Calgary for an immediate operation for appendicitis and we understand that he is doing as well as can be expected.

Mr. J. H. Sumpter is a visitor to Swalwell this week.

Rumor hath it that Mr. R. De Waele has sold his half section, with standing crop and realized the cash price of \$30,000.

## MESDAMES J. O'ROURKE & J. J. GREENAN ENTERTAIN

A very successful bridge party was given by Mrs. J. O'Rourke and Mrs. J. Greenan at the home of the latter last Wednesday evening in aid of St. Gabriel's Church furnishing fund.

Mrs. G. Malton won first prize, one-half doz. cut glass sherbets. Two intermediate prizes, a fancy pencil with butterfly weight for bridge table, and a candy basket, were won by Mrs. M. McNaughton and Mrs. A. Hay, while Mrs. H. Willson won the consolation prize, a fancy pencil.

Mrs. G. Tutt won the pillow cases and Mrs. J. Ramsay the luncheon cloth, the lucky numbers being drawn by Miss Belle Smith and Miss Ethel Wright respectfully.

The gross proceeds of the bridge and drawing were \$65.50; prizes and expenses \$13.30, leaving a net balance of \$52.20.

Mrs. S. F. Torrance rendered vocal selections during the evening.

## ONTARIO PREMIER SUGGESTS SUBSIDIZING COAL SHIPMENTS

Strong support in Alberta's move to place coal from this province on the Ontario market was promised by Hon. Howard Ferguson, Premier of Ontario, at a banquet tendered him by the Alberta Government and the Edmonton Board of Trade in Edmonton on Saturday last. Premier Ferguson, who was welcomed by Hon. George Hoadley, urged the granting of a subsidy by the Dominion Government to overcome the difficulty of high transportation charges on coal encourage inter-provincial trade, and suggested the same procedure to assist in moving grain, beef, fish and other western products to the markets of Eastern Canada.

## The Conservative National Convention

The holding of a national convention by any great organization is always a matter of interest and of importance to people generally because of the effect it may have on the country as a whole. But when such a convention is called by a political party for the purpose of formulating policies and electing a leader, the gathering becomes one of first importance. It was natural, therefore, that the recent Conservative Convention in Winnipeg should command not only the interest of members and adherents of that particular party, but of the Canadian people as a whole.

Interest in the convention was all the greater because it was unique in the history of the party, being the first national gathering of Conservatives to be convened since Confederation. Liberals and other political groups have convened in national convention but the Conservatives had not done so prior to this year of Canada's Diamond Jubilee. It added one more nationally important observance of this memorable year in Canada's history.

As is well known to our readers, this column does not attempt to deal with or discuss questions which are the subject of controversy between political parties, and in this particular article there is no intention of departing from that rule. But as a national event, the recent convention presented certain features and took certain actions which, instead of being controversial, are matters for general satisfaction.

In the first place, like all great national gatherings, the Conservative convention performed an unquestioned service to Canada in bringing together hundreds of the leading men and women of the nine provinces. The resultant exchange of views and opinions, the new knowledge gained of each other and each other's problems, the round table conferences in committee, can not fail to profoundly affect future policy throughout the Dominion.

To the West in particular the unqualified endorsement of the Hudson Bay Railway project and approval of steps not only to complete the railway but to develop a port and traffic in and out of that port is most gratifying. It definitely removes this great undertaking from the realm of partisan politics and places it where it belongs as one of the great national undertakings of the Dominion to the success of which all are committed.

It is likewise gratifying to the West that the mantle of leadership should have fallen on the shoulders of a Western man, yet a man who has an intimate knowledge of the East. Whether one agrees with the political views of R. B. Bennett or not, few, if any, will question his ability or his love for and desire to serve his native land. His long experience in public life, as a member of the old North-West Territories Assembly, the Alberta Legislature, and the House of Commons, his training in law, his qualifications as a speaker, and the responsibilities which have been his as Minister of Justice and Minister of Finance in former Governments at Ottawa, should fit him for his new task of party leadership. In the hands of Hon. Mackenzie King and Hon. R. B. Bennett, all that is best in British Parliamentary traditions and procedure should be worthily upheld.

Finally, the convention, and the settlement of the question of leadership, should have the effect of giving greater stability to political thought throughout the Dominion. It marks the end of a period of indecision and unrest in the ranks of one of the political groups which is a good thing for Canada as well as for the party itself. Unity in purpose and decisiveness in action is what a young and rapidly developing country like Canada urgently requires in order to make progress. It is vital to the interests of the Dominion that not one or two but all political groups know their own minds, definitely state their policies, and show decision in their actions. Unless those who direct and those who seek to direct the destinies of Canada are themselves strong and united in leadership and policy, it is futile to hope that they can make that contribution to the welfare and progress of Canada which is essential.

### New Serum Successful

Claim Cure For Infantile Paralysis Has Been Perfected

Discovery of what is said to be the first effective commercial specific for treatment of infantile paralysis was announced at Indianapolis by Eli Lilly & Co., pharmaceutical chemists.

After ten years' research an anti-streptococcal serum has been developed from the horse as in the case of diphtheria and scarlet fever serums.

The serum is being produced there in co-operation with Dr. Edward C. Rosenow, chief of experimental bacteriology of the Mayo Foundation, and already 10,000 units have been sent

to poliomyelitis epidemic centres from coast to coast and even into Cuba.

First reports show it especially effective in Ohio and California.

Clinical observations show that best results are obtained if the serum is used as soon as the case has been diagnosed, recovery without paralysis being reasonably certain in such cases. The serum has been found effective in treating paralysis already begun, and in reducing handicaps of bodies already paralyzed.

The same Lilly chemists who developed insulin for diabetes control worked on the new paralysis serum.

The White House gets its name from the fact that after the first executive mansion, which was of buff freestone, was burned by the British in 1814, the walls were covered with white paint to hide all traces of fire.

Many mothers can testify to the virtue of Mother Graves' Worm Expeller, because they know from experience how useful it is.

London's tallest policeman recently committed suicide when retired because of ill health.

In France forty-two tons of letters could not be delivered last year owing to careless addressing.

Relieves Sore Throat—Minard's Liniment.

### Old Age Pensions For B.C.

The Pittance That Will Banish the Worst Spectres Of Poverty

The Vancouver Province is strongly in favor of old age pensions, which are now established in British Columbia. "It means, little as it is," it says, "all the mighty difference which lies between the tragedy of age in want and the assurance of a pittance which will at least banish the worst spectres of poverty. It is not too much, but it is a very great and beneficent thing, this beginning of old age pensions in Canada, in the lives of some of those neighbors and fellow citizens of ours—those who have fulfilled their three score years and ten, and have found the battle a little hard in their later days."

### Use This Liquid To Peel Off Corns

An amazing remedy—acts in a few seconds and causes no pain. The corn shrivels up and loosens. Another application or two and the corn drops out. Wonderful—yes it is—but that is just how. Putnam's Corn Extractor works. You can buy Putnam's Corn Extractor from many druggists. Get your bottle today. Refuse a substitute for Putnam's.

### Honey Exports

With a honey production of 21,000,000 pounds in 1926, a record of 200 per cent. increase for the past five years was recorded. Exports of honey from Canada in the twelve months ended June, 1927, had a value of \$191,843, as compared with \$159,733 in the previous year, and with \$93,945 in the year before that. Germany is the principal customer, other purchasers being the United Kingdom, the United States and the Netherlands.

### A SIMPLE TREATMENT FOR CHILDREN'S COLDS

Cold in the head is very common at this time of year, especially in the very young. Neglect of a cold is prone to lead to serious consequences. To relieve all congestion of the system is the first step in treating a cold, whether in infants, or adults. For the very young, Baby's Own Tablets are the ideal means of doing this. Containing no narcotics or other harmful drugs they soothe the child's fretfulness, relieve its suffering and ensure convalescence.

Baby's Own Tablets are without an equal for relieving indigestion, constipation and colic. They check diarrhoea; break up colds and simple fevers; promote health-giving sleep and make the dreaded teething period easy. The Tablets are the one medicine that a mother can give her little ones with perfect safety as they are guaranteed to be free from injurious drugs. They are sold by all medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### How Should I Wean My Baby

This is a serious problem to many mothers. Weaning should always be done gradually, beginning about the seventh month, giving one or two bottle feedings during the day, increasing the number of bottle feedings gradually until weaning is accomplished. Borden's Eagle Brand Milk is so like mother's milk in taste and ease of digestion that it can be given alternately with breast milk without causing abrupt weaning.

In this paper from time to time you will find an advertisement of Borden's Eagle Brand Milk, a food that has raised more healthy babies than all the prepared infant foods combined. Cut out the advertisement and mail it to The Borden Company Limited, Montreal, and they will send you, free of charge, instructions for feeding your baby, and a Baby Welfare and Baby Record Book. Or, just write the Company, mentioning this paper, and they will be sent.

### Minard's Liniment for Lumbago.

Saskatchewan Motor Licenses According to the Saskatchewan Provincial Treasurer's report there has been a tremendous jump in the number of motor cars used in the province, from 10,225, in 1915, to 102,000 this year up to the end of August. Revenues from motor licenses and fees this year ran to \$1,519,262; corporation tax to \$516,199,000 and railway tax \$319,000.

Don't marry him if he sits in his car and hanks instead of coming up to the door. He's the kind who will want hotel service in the home.

### Want Representation

Saskatchewan United Farmers Would Have Agricultural Interests Represented On Rail Board

Representation of organized agricultural interests on the Canada Board of Railway Commissioners is being asked by the United Farmers of Canada, Saskatchewan section, in a resolution passed by the executive board meeting at Saskatoon. A copy of this resolution has been sent to all Western Federal members of parliament. A vacancy will occur on the board shortly through the expiration of the term of office of Commissioner A. C. Boyce.

The resolution is as follows: "As a matter of justice and equity, we the executive board of the United Farmers of Canada, Saskatchewan section, strongly urge a reconstruction of the personnel of the railway commission so as to give the Western provinces a more equal representation with Eastern Canada, and that one such appointee be representative of Western organized agricultural interests."

"Further that a copy of this resolution be sent to all western federal members with a view to soliciting their co-operation and support."

A similar resolution has also been passed asking representation of organized agricultural interests on the board of directors of the Canadian National Railways.

Relieves Asthma At Little Expense. Thousands of dollars have been vainly spent upon remedies for asthma and seldom, if ever, with any relief. Dr. J. D. Kellogg's Asthma Remedy, despite its assurance of benefit, costs so little that it is within reach of all. It is the national remedy for asthma, far removed from the class of doubtful and experimental preparations. Your dealer can supply it.

### Germany Plans Air Train

Powerful Planes For Locomotives and Gliders For Pullmans

Aeronautical engineers in Germany are working on plans of an "air train" as a possible means of travel in the future. The locomotive will be a powerful aeroplane and the "pullmans" a row of gliders coupled to the locomotive and to each other, as the cars of a train, only with considerably greater spacing between the units.

Passengers in each glider will be destined for some particular town, and as the alldrome of each town is approached the glider for that destination will be released from the end of the string and settle gracefully down with its special pilot and its passengers.

How dull business would be if every man refrained from buying until he could afford it.

Eagle Brand has raised more healthy babies, since 1857, than all other infant foods combined.

### Concealed His Identity

First and Second Essay Contest Prizes Go To One Man

Anyone who has been curious to ascertain the identity of Louis Riel and Pierre Parent, who were announced as first and second prize winners in the essay contest conducted by the confederation jubilee committee, can be enlightened by the fact that these names were fictitiously employed by Major Gustave Lanctot of the public archives.

Major Lanctot is a well-known authority on Canadian history, being a member of the Royal Society, president of the Folk Lore Society and secretary of the Canadian Historical Association.

An Oil Of Merit. — Dr. Thomas' Electric Oil is not a jumble of medicinal substances thrown together and pushed by advertising, but the result of the careful investigation of the healing qualities of certain oils as applied to the human body. It is a rare combination and it won and kept public favor from the first. A trial of it will carry conviction to any who doubt its power to repair and heal.

"You need cold compresses!"

Editor and Publisher

**'TIS A YEAR**

With this issue we conclude the first year of our business activities in Carbon. Since coming here we have done business with nearly everyone in town and although at times we have not been pleased with the outcome, still we have managed to keep our head above water. The Sea has been rough and the billows high and many times we have stared starvation in the face, but each time we have braved the storm and come out on top.

The paper has improved considerably

under our management and although its columns lack local advertising, we have continued to do our best and have hoped for the support of the business men. We have at all times tried to print the local news of the town and district and uphold the good of the town in the columns of our paper. We have missed many good items of Local Interest, but we are only human and can't be everywhere at once.

The circulation of The Carbon Chronicle has increased considerably during the past twelve months and we now have a copy of the paper going to nearly every family in the town and district.

With the Job Printing we have only met with fair success, but business is picking up in this line. However, there are still a few of the business men in town who still persist in getting their printing requirements done someplace else, but we still have hopes of getting their business by keeping up our good work and service which we have cheerfully rendered at all times.

On the whole we have done as well as could be expected for the first year among you and only hope that we will continue to get the full support of the people of Carbon and district and from our subscribers and others with whom we do business, and in return we can only promise to do our level best and get out as newsy a sheet as possible each week.

**Apple Sauce**

Bill: What is the hardest thing you ever did?

Will: Make ten easy payments.

Wifie: You think so much of your golf that you don't even remember when we were married.

Hus.: You bet I do. It was the day after I sank that thirty-foot put.

Just when we think we can make both ends meet, someone moves the ends.

I feel awful sad. It's hard to

lose a wife.

Hard! It's doggone near impossible.

Alice: Do you still run around with that little blonde?

Bobby: She's married now.

Alice: Answer my question!

The world is like a box of strawberries, the big ones get on top while the little ones are crushed to the bottom.

"Hello, Willie," exclaimed the kind old traveling man. "How is your dear old Granpa standing the heat?"

"Ain't heard yet," said Willie, "he's only been dead a week."

**Getting into the Home**

Women buy more than two-thirds the merchandise sold in retail stores and every woman reads the Classified Want Ads. Our paper goes into the homes and the Want Ads. will reach the Spenders.

### WORLD HAPPENINGS BRIEFLY TOLD

Languages of all the races of the world will be preserved on phonograph records for posterity when a unique collection being made for the new museum of languages, Paris, is completed.

The negotiations in connection with the commercial treaty between Canada and Czechoslovakia are now so far advanced that a definite conclusion is expected during the course of the coming winter.

Sir Thomas Lipton completed his sixtieth voyage to the United States when he arrived at New York, recently, on the Leviathan with a challenge to American yachtsmen for races in 1929. He made his first voyage in 1867.

A Toronto publishing house announces the publication next month of a book entitled "The Message of the Carillon and Other Addresses," by Premier Mackenzie King, with simultaneous publication in London and New York.

To study means of protecting the civilian population against the effects of chemical warfare, the Geneva International Red Cross Committee is arranging a meeting of international experts at Brussels, Belgium, January 16, 1928.

More telegrams of congratulation and well wishes are sent by Jewish people than any other group in the United States, the Western Union Telegraph Co. has found out, in compiling a record of messages of a non-business nature.

The Prince of Wales and Premier Stanley Baldwin have accepted invitations to be guests of the Canada Club at a dinner to be given in London, by the club, November 21. This is regarded as a sort of final wind-up celebration of the summer tour of His Royal Highness and the Premier in Canada.

The Toronto Telegram says: "Canada's next royal visitor is likely to be the Duke of York, for an authority informs us 1929 will see a visit of the second son of Their Majesties to Canada, when it is understood among his public duties will be the opening of Toronto's 'Royal York,' a new hotel."

Health cannot be looked for in the child that is subject to worms, because worms destroy health by creating internal disturbances that retard development and cause serious weakness. Miller's Worm Powders expel worms and are so beneficial in their action that the systems of the little sufferers are restored to healthfulness, all the discomforts and dangers of worm infection are removed, and satisfactory growth is assured.

#### Westerners Receive Medical Degree

Four western candidates have successfully passed the October examinations of the medical council of Canada, permitting them to practice in any province in Canada. Thirty candidates successfully passed the examination. The westerners are: A. L. Hurl, Vancouver; P. M. Jones, Victoria; W. H. Mann, Summerland, B.C.; and C. A. Ryan, Vancouver.

### Once Famous Liner Is Being Wrecked

Empress Of Japan Boasted Finer Equipment Than Many Modern Ships

The hammers and levers of a wrecking crew are making fast work of all that remains of the liner Empress of Japan, once one of the blue ribbon ships of the North Pacific.

For several years the old ship, which was launched in a British shipyard 37 years ago, has been lying at anchor in Burrard Inlet. Her once proud and majestic frame of clipper design has gradually been converted into a bare skeleton of steel, and in a few weeks even this will have gone to Japanese yards to be fabricated into material for new ships. It is said that the man who bought the vessel from the Canadian Pacific Railway, which operated the vessel so many years in the trans-Pacific trade, has already made a fortune through the removal and sale of the vessel's fittings. In these days of rapid production few ships are given the fine equipment such as the Empress of Japan boasted. Every rivet was a perfect job, the plates were sound, not a door in the bulkheads but swung freely and shut tightly as when the ship was new—all this, when the wrecking crew began its work of destruction.

The Empress of Japan had friends all over the world. Tens of thousands of people who were carried as passengers in the days of her prime remember the ship with pride that is shared by the scores of seafaring men who made the ship their headquarters for many years.

The Empress of Japan was one of three sister ships. The Empress of India was sold to the Gairwar of Baroda during the war and served as a hospital ship for Indian troops, later being returned to the merchant service. The Empress of China was lost on a reef off the Japanese coast some thirteen years ago.

### Winnipeg Newspaper Union

A New Bloomer Dress

This attractive bloomer dress has a two-piece skirt gathered to a yoke opening at the back. The round neck is finished with a collar, and there are pointed cuffs on the short sleeves. The bloomers have elastic run through the top and leg casings. No. 1656 is in sizes 2, 4 and 6 years. Size 4 requires 2½ yards 24-inch, or 1½ yards 34-inch material. Price 20 cents the pattern.

**Combined Harvester-Thresher**  
The harvester-thresher has had a very definite place in the crop of 1927. In 1926 there were 180 machines in Western Canada, which cut approximately 99,000 acres. During the present season 260 machines were distributed in this territory alone.

### Silk Stockings

Have stockings in the very newest shades; your old or faded stockings given any tint in the rainbow in five minutes; with fifteen cents' worth of Diamond Dyes! but use dyes, not synthetic tints. And be sure they're true dyes.

Try a pair tonight! Use Diamond Dyes, and on one will dream they were tinted at home. And you can do real dyeing with just as perfect results, if you will just use the true Diamond Dyes.

**Free:** Why not ask your druggist for the very useful Diamond Dye Encyclopedia? Valuable suggestions, easy directions, and piece-goods sample colors. Or write for free copy of Color Craft, a big illustrated book sent postpaid address: DIAMOND DYES, Dept. N13, Windsor, Ontario.

Just Dip to TINT, or Boil to DYE

#### Manitoba Aviation League

Organization Is Expected To Give a New Impetus To Flying In the Province

The keen public interest in aviation, and the fact that Winnipeg, will, in time, become one of the most important airports in this country, has resulted in the formation of the Aviation League of Manitoba. With leading citizens serving as officers of the organization, and on the Board of Governors, it is expected that the League will give a renewed impetus to flying in this province. The officers of the League follow: J. A. Richardson, honorary president; D. C. Coleman, president; H. P. Crabb, secretary; Board of Governors: Edward Anderson, T. C. Anderson, W. R. Clubb, J. B. Coyne, P. G. DuVal, Charles Gray, W. H. Gardner, J. Hunter, S. N. Jones, W. A. Kingsland, A. W. McLiment, W. McCurdy, Hugh Osler, R. H. Parkhill, C. S. Riley, J. A. Sully, W. A. Straith, Mayor R. H. Webb, and E. O. Woodman.

The object of the League, as set forth in the constitution is: To foster, encourage, and advance the science of aeronautics; to kindle and keep alive interest in same and legitimate aviation; to encourage and assist scientific groups or institutions in promoting the science of aeronautics, and aerial navigation, and to promote uniform laws, flying regulations, and air routes. To prepare and distribute general and scientific aeronautical data pertaining to atmospheric conditions, flying fields and air routes, to encourage and organize volunteer air cadet squadrons for boys and young men, in which they can receive practical and theoretical instructions to prepare them for active participation in aviation, to do all such other lawful things as are incidental or conducive to the attainment of the above objects.

In keeping with the work of the League, Major General J. H. MacBrien, C.B., C.M.G., D.S.O., addressed the Canadian Club at luncheon in the Royal Alexandra Hotel on Tuesday, October 18.

#### Minard's Liniment for Asthma.

**Banff Winter Carnival**  
The Winter Carnival at Banff is to be held from February 4th to 11th next year, according to L. C. Orr, president of the Banff Winter Sports Association. Preparations are under way that give promise that this carnival will eclipse all previous events of the kind.

### SUNDAY SCHOOL LESSON

OCTOBER 30

#### AMOS DENOUNCES SIN

Golden Text: "Seek good, and not evil, that ye may live; and so Jehovah, the God of hosts, will be with you, as ye say."—Amos 5:11.

Lesson: Amos 2:4 to 3:15.

Devotional Reading: Psalm 15:1-5.

#### Explanations and Comments

I. Judah's Sing and Threatened Punishment, verses 2-5.—"Thus saith Jehovah," were the words with which Amos prefaced his denunciation of sin, for he rightly believed that he was the mouthpiece of a righteous God. "For three transgressions of Judah, yea, for four (the Hebrew way of saying, 'of accumulated transgressions'), I will not turn away the punishment thereof." Judah, the Southern Kingdom, had sinned over and over again; it was not any one evil act, but persistent, repeated evil acts that had called forth judgment. "Because they have rejected the law of Jehovah (the teaching of the prophets and priests), and have not kept his statutes (the definite, legal enactments), and their lies have caused them to err, after which their fathers did walk." "By lies" are meant the unreal, imaginary deities, the Baalim and Ashtaroth, who have no existence save in the minds of the worshiper, and therefore are sure to disappoint his hopes."—Dummelow.

"But I will send a fire upon Judah, and it shall devour the palaces of Jerusalem." Judah would share the doom of the neighboring nations upon which the prophet had pronounced God's judgment in the earlier part of his address.

#### Says Greenland Once Tropical

Danish Explorer Has Evidence To Prove His Claim

Lauge Koch, Danish explorer, has returned to Copenhagen from an exploration of Greenland with evidence that Greenland was once a tropical country. Koch and two assistants explored the coastland of North Scoresby Sound to Denmarkshavn, Greenland. The exploration is regarded as important because it shows inhabitants new routes to North Greenland.

Koch brought back the largest collection of specimens ever taken from Greenland, eight tons of fossils, plants, and animals showing three geological periods. Some specimens indicated that at one time there was tropical life on Greenland, such plants as palms growing in abundance. Signs of numerous hot springs and rich animal life were found.

### DYSENTERY WAS SO BAD BECAME ALARMED

Mrs. Wallace Pepper, R.I., No. 6, Simcoe, Ont., writes:—"Last summer I was very bad with dysentery. I lost my appetite, and had such severe pains in my abdomen they made me very faint. I passed blood which greatly alarmed me, so I hurried to the doctor. He told me the quickest way to get rid of it would be to take

"I took only part of a bottle and was completely relieved. I feel I cannot recommend it too highly."

This wonderful bowel complaint remedy has been on the market for the past 80 years; put up only by The T. Milburn Co., Limited, Toronto, Ont.

Germany is represented for the first time since 1914 at the exhibition of the London Salon of Photography.

Argentina is entering a new era of prosperity, caused by increased world demand for its products.

"That music makes me ill. I shall leave here soon."

"Why not at once?"

"Because I have paid for this dance."—Journal Amusant, Paris.

### The BABY

No mother in this enlightened age would give her baby something she did not know was perfectly harmless, especially when a few drops of plain Castoria will right a baby's stomach and end almost any little ill. Fretfulness and fever, too; it seems no time until everything is serene.

That's the beauty of Castoria; its gentle influence seems just what is needed. It does all that castor oil might accomplish, without shock to the system. Without the evil taste, it's delicious! Being purely vegetable, you can give it as often as there's a sign of colic; constipation; diarrhea; or need to aid sound, natural sleep.

Just one warning: It is genuine Fletcher's Castoria that physicians recommend. Other preparations may be just as free from all doubtful drugs, but no child of this writer's is going to test them! Besides, the book on care and feeding of babies that comes with Fletcher's Castoria is worth its weight in gold.

### Children Cry for

**Fletcher's  
CASTORIA**

#### Early Home Of Mankind

Find Skull In Africa Of Man Who Lived 25,000 Years Ago

A male skull, declared to be a perfect specimen of the type of men who existed about 25,000 years ago, has been brought to the United States by Dr. George L. Collie, professor of anthropology at Beloit College.

Dr. Collie, who represented the Logan Museum of Beloit, in Algerian excavations, borrowed the skull from M. A. Debruge, its French discoverer, for examination by United States scientists. This and other recent discoveries in Africa provide convincing proof, said Dr. Collie, that Africa and not Asia, was the early home of mankind.

### Sore Throat

Spread on brown paper and apply on outside. Reduces swellings and eases pain.

**MINARD'S  
"KING OF PAIN"  
LINIMENT**

It is wise to be certain that the enamel used in any white painting you are having done is of good quality. The extra cost will be saved when it comes to keeping it clean.

### "A Babe in the House is a Well-spring of Pleasure."

St. Catharines, Ont.—"During motherhood I was all rundown, nervous and weak, when, upon advice, I began taking Dr. Pierce's Favorite Prescription. It strengthened me, quieted my nerves and I had no more trouble. I kept well and had a fine, big, healthy baby—he has scarcely had a day's sickness. The 'Favorite Prescription' was so helpful to me that I believe it is the only medicine for the expectant mother to take."—Mrs. Gordon Bouck, 33 Wiley St.

Go to the drug store at once and obtain this Prescription in tablets or liquid, or send 10c to Dr. Pierce's Laboratory in Bridgeburg, Ont., for a trial package of tablets.

## CAREFUL DRYING OF WHEAT WILL SAVE MILLIONS

Winnipeg.—Important recommendations which probably will mean a saving of millions of dollars in the marketing of this year's grain crop of Western Canada are contained in a tentative report submitted to the Board of Grain Commissioners by the grain research committee of the Canadian Research Council.

Owing to adverse weather conditions, an immense amount of tough and damp grain is being threshed this year. This will necessitate careful drying. Last year a similar condition prevailed, and heavy discounts had to be made on European sales as a result of the general complaints regarding the quality of dried grain.

It is said that if the grain this year is properly dried, as recommended in the report, the great losses sustained during the last season can be eliminated and they were estimated to total into the millions of dollars. Thus the producers will get the direct benefit.

With a view to preventing the recurrence of heavy losses this year, the grain research committee at the request of the Canadian Wheat Pools undertook to investigate the effect of drying on the quality of wheat last January.

## Plan Aviation Program For Coming Year

New Flights and Exploration Trips Included In U.S. Project

New York.—Aviation has advanced a new year's boom program calculated to surpass the unprecedented achievement of the season now drawing to a close.

That program includes:

Building of new factories by Charles A. Levine and Anthony H. G. Fokker. Manufacture by Levine of planes ranging from a "diver," priced at \$1,500, to a multi-engine type for ocean travel.

An air expedition into the Arctic under command of General Nobbe, member of the crew of the Norge.

A trans-Atlantic flight by Clarence D. Chamberlin in a huge Bellanca plane capable of transporting 20 persons.

Harry E. Guggenheim, Philadelphia, announced that he had created a fund to promote research work in the interest of aviation. The fund, it was announced, would be used to develop instruments which would reduce the hazards of flying.

A gold medal, to be awarded annually to the person who does the most to minimize the dangers of aviation, was announced by the Engineers' Club of Philadelphia.

## Believe Clue Found To Missing 'Planes

Rubber Ball Picked Up In Ocean Bears Number 218

St. Johns, Nfld.—A report from Europe that a rubber ball had been picked up there, which was believed to have been dropped from an aeroplane, led to the hope that it might furnish some clue as to the yet unsolved fates of the trans-Atlantic planes, Whitebird and St. Raphael.

The ball, about two feet in diameter and made of an expensive material, was enclosed securely in a strong canvas bag. The numbers 224 and 17RE, a little worn, could be seen on the rubber, but a word on the outside casing was indecipherable, although it looked as if it might have been London.

The number 218 on the canvas bag was very distinct.

### A Second Cave-In

Sudbury, Ont.—A second cave-in at the Mond Nickel Company mine at Worthington has put the Canadian Pacific Railway division at this point temporarily out of commission. The east bank of the cavity sloughed for a distance of 100 feet, 20 feet in depth but did not drag the roadbed into the cavity. However the tracks are not considered safe for traffic as the ground has been undermined.

W. N. C. 1794

## Police Forces To Co-operate

Dominion Government Will Not Consider Withdrawal Of R.C.M.P.

Ottawa.—While the Dominion Government cannot for one moment consider the withdrawal of the Royal Canadian Mounted Police as agents of the Federal authority from the province of Saskatchewan as suggested in Press despatches from Regina, some arrangement may be arrived at between provincial and federal authorities whereby the R.C.M.P. and the Saskatchewan Provincial Police will co-operate in the enforcement of provincial statutes.

This was the statement of Hon. Ernest Lapointe, Minister of Justice, regarding the police situation in the prairie province. Hon. Mr. Lapointe stated that the press despatch conveyed no news to him, since negotiations were under way last year between Saskatchewan authorities and himself as a result of the feeling at Regina that there was overlapping in provincial police work.

"There has been no trouble. It is purely a matter of economy," the minister said. "Saskatchewan authorities want to avoid overlapping, and think that provincial matters affecting the enforcement of the law could be better handled by one force or by closer co-operation between the existing authorities."

"The government has no idea of withdrawing any part of the R.C.M.P. anywhere, but we may be able to come to some arrangement with the gentlemen from the West at our meeting in the near future to ease the situation there."

## Ontario Prefers Western Coal

Would Pay Higher Price If Necessary Opinion Of Premier Ferguson

Winnipeg.—There will be no amending of the constitution and no tampering with the British North America Act arising out of the conference of provincial premiers, slated to open in Ottawa on Nov. 3, according to Hon. Howard Ferguson, premier of Ontario, who on his arrival in Winnipeg from a tour of the West, characterized the placing of such question on the conference agenda as "absurd."

"When we get through with it, I don't think it will be raised again for some time," he said, adding that the premiers he had spoken to during his trip were of the same opinion as himself.

Referring to the question of Western coal for Ontario consumption, Mr. Ferguson said he believed the people of his province were willing, if necessary, to pay a bit more to use the native product. While glad to have U.S. capital for development, while he welcomed American cooperation and American settlers, he was averse to paying them money for something Canada produced, especially as once Canadian money crossed the border it stayed there.

Mr. Ferguson thought that with time, and as the result of careful discussion and study of all angles of the Western coal question, accompanied by a reasonable attitude, negotiations might lead somewhere.

## Noted Schooner Sold

Ship On Which London Wrote "The Sea Wolf" Brought \$1,490

San Pedro, Cal.—A two-masted schooner, aboard which Jack London wrote his novel "The Sea Wolf," was sold under a United States' marshal's hammer for \$1,490 as the rum runner Hakadada. The schooner, which was known as the Saucy Lass when owned by the novelist, went to Mrs. Charman Conley Jones, of Los Angeles.

The rum runner was seized in April on the coast of Lower California. She was built in Victoria, B.C., in 1892. Her latest registry was Panama, but this was cancelled by Panama after seizure.

### Hospital For Paralysis

Edmonton.—A temporary hospital for the care and treatment of infantile paralysis patients during the period of convalescence is to be established by the Provincial Government, according to announcement made here. Arrangements for getting the new hospital under way will be made as soon as a survey of the general situation with respect particularly to the likely number of cases, has been completed. Patients will be taken from all parts of the province.

## Swims Across English Channel

Mercedes Fleitz, a London typist, who is the first English woman to swim the English Channel. Despite the lateness of the season and a heavy fog she walked victoriously ashore at St. Margaret's Bay at 10 p.m., after having been in the water 15 hours and 15 minutes. Twice previously had the channel been swum by women, both Americans.

## Deny Charges Against Moscow Millionaires

Were Not Associated With Mission Says Former British Secretary

London.—The Daily Express quotes Edward Carnock, former secretary of the British Mission in Moscow, as denying that Kyril Prove, and Vladimir Prove, two former Moscow millionaires alleged to have supplied him with Red army and navy mobilization plans, ever associated with the mission.

"It is another of the long series of scandals which followed the withdrawal of the British mission," Secretary Carnock, who is now in London, declared. "We are naturally concerned by the arrests because they mean almost certain death of scores of innocents."

According to the Daily Express, the charges also involve Sir Robert Hodgson, one time head of the mission and the former British consul at Leningrad.

### Remove Youthful King

Berlin.—Reports from Bucharest say that a case of cerebro-spinal meningitis has broken out at the Royal Palace at Sinala, Rumania. As a precautionary measure young King Michael has been removed to a castle in the Carpathians.

### Armistice Is Predicted

Chicago.—An armistice in Mexico's religious warfare will follow the presidential election there, Rev. Leopold Rulz, exiled archbishop of Michoacan, predicted upon his arrival here.

## Women and the Senate

Question Of Eligibility Is To Be Submitted To Supreme Court

Ottawa.—The Government has decided to submit to the Supreme Court the question of whether women are eligible to sit in the Senate.

For some time past, women's organizations have been urging that any necessary legislation should be passed to enable women to sit in the Senate the same as they can now sit in the House of Commons. But there always has been some doubt whether the British North America Act gives the necessary authority. The act authorizes the Government to appoint "qualified persons," but is a woman a person within the meaning of the act? Or is the term person limited to a man?

The Government also has decided to apply to the Privy Council for leave to appeal on the question of Alberta's natural resources. Transfer of Alberta's resources was before the Supreme Court on a reference heard some time ago, and the court gave judgment. That judgment the Dominion Government now seeks to have taken to the Privy Council for a final ruling on the subject.

## Alberta Coal Strike

Minister Of Labor Offers His Services To Help End Dispute

Ottawa.—The assistance of the Department of Labor was offered to the parties of the Drumheller coal strike by Hon. Peter Heenan, Minister of Labor.

"As the law now stands," said the minister in an interview, "Alberta has not passed legislation to enable the federal department to administer the Industrial Disputes Act in that province. But Alberta has passed an Industrial Disputes Act of its own, and I feel sure they will look after this particular trouble."

"However, if the parties to the dispute or the provincial government of Alberta desire any assistance from this department I shall be happy to do everything in my power to bring about a settlement."

Mr. Heenan pointed out that six of the nine provinces had passed the enabling legislation which permitted the federal Industrial Disputes Act to function. Ontario, Quebec and Alberta are the three which have not adopted the necessary legislation.

### Nelson To Face Trial

Winnipeg.—Marie Nelson, alleged stranger, now in jail here, charged with the murder of two Winnipeg women, will be tried before Mr. Justice Dysart at the assize court opening November 1. R. B. Graham, K.C., crown prosecutor, will represent the crown, while J. H. Stitt will act on behalf of the prisoner.

## GOVERNOR GENERAL AT JASPER

Their Excellencies the Governor-General and Lady Willingdon, and the other members of the Vice-Royal party, enjoying a quiet holiday at Jasper National Park, posed for this informal photograph just before luncheon. They had spent the morning golfing or on other outings. In the group are Major-General E. A. Ashton, of Ottawa, and Mrs. Ashton, Robert H. Davis, editor of the New York Sun, and Mrs. Davis, and R. H. Knight, acting superintendent of Jasper National Park, who were the luncheon guests of Their Excellencies

on this occasion. Viscount and Lady Willingdon are seated on the steps in the centre. Mrs. Osborne is on the extreme left; next her is Mrs. Ashton; Mrs. Davis is on the right of His Excellency and Mr. Knight is seated beside Lady Willingdon; the Hon. Ruby Hardinge stands beside Mr. Knight. In the front row are the Hon. Mrs. Freeman-Thomas, Capt. the Hon. Freeman-Thomas, and Capt. the Hon. J. Jarvis. Those in the back row, left to right, are: Mr. Davis, Capt. E. C. Melville, Lord Hardinge, Lady Hardinge, and General Ashton.—Photograph, Canadian National Railways.

## FINAL PAYMENT ON POOL WHEAT IS ANNOUNCED

Winnipeg.—A final payment of over nineteen million dollars on the 1926 crop of Pool wheat, was announced by A. J. McPhail, president of the Canadian Wheat Pool.

"Of the total amount the Saskatchewan Pool received \$12,929,297, the Alberta Pool, \$4,198,087, and the Manitoba Pool, \$2,085,576," stated Mr. McPhail.

"The total payment made by the Central Selling Agency to the three Provincial Pools represents the net balance after deducting all marketing costs incurred by the Central Selling Agency, such as storage, export charges and administrative expenses from the proceeds of the 1926 crop."

"As in previous years the proceeds between grades have been adjusted in the final payments which reflect the actual price secured for the various grades."

"The final payments make the total price on the principal grades as follows: Number one Northern, \$1.22; Number one Durum, \$1.45; Number two Northern, \$1.37 1/4; Number three, \$1.31; Number four, \$1.21 1/2; Number five, \$1.09; Number six, 97 1/2."

Mr. McPhail stated that the carrying charges and operating expenses of the Provincial Pools are deducted from the final payment. In addition the provincial pools made deductions for the commercial and elevator reserves, which are credited to the individual members. Members receive interest on the money lent by them to their Pool as an elevator reserve, which is used to provide elevator facilities.

The administrative expenses of the Central Selling Agency for the crop year of 1925-26, according to Mr. McPhail, were covered by a deduction of less than a fifth of a cent per bushel. The distribution of over nineteen million dollars brings the grand total paid by the Pools since the Alberta Pool started in 1923 to over six hundred and seventy million dollars.

## Beam System Of Radio

Wm. Marconi Says It Is the Basis Of Future Improvements

Washington.—The beam system of radio transmission is the basis for all future wireless improvements, in the opinion of William Marconi, here as one of Italy's representatives at the international radio conference.

Upon its perfection, he believes, will depend to a large extent the development of such widely different wireless applications as photographic transmission and radio telephony.

Marconi explained how he had succeeded in restricting radio emanation to a beam diverging from the sending station at an angle of not more than to or three degrees. The effect of this, he continued, was that all energy of the transmitting station which under ordinary circumstances would have been spread in all directions was concentrated along this beam.

Owing to this concentration the strength of the incoming signal at the receiving station had been increased as much as 200 times in some cases. In trans-Atlantic communication between this country and England, he said the beam system had strengthened messages 100 times. To obtain the same strength of incoming signals without directional transmission the sending power would have had to be increased 10,000 times, which, Marconi added, would not have been feasible.

Since the success of radio telephony and photographic transmission are dependent upon the strength of the incoming signal, Marconi declared he considered his experiments with beam transmission as a basic one for the improvement of the art.

Asked whether wireless would ever completely replace the cable, Marconi said the latter had only the advantage of secrecy, but that with the beam system secrecy is practically absolute in radio since words are transmitted at as high a rate as 500 per minute, requiring complicated and expensive receiving sets. In addition such messages are subject to reception only by stations in the direct part of the beam.

## Forty Thousand Miles Of Air Routes Now In Operation Daily Throughout the World

One of the dangers of uncontrolled flying is that such feats and their frequent tragic consequences may blur the public mind to the fact that enormous progress is being made in the field of practical aviation. One always hears of the tragedies that often darken the sometimes gallant, sometimes foolhardy, attempts to span the oceans. Less is heard of the steady, scientific conquests being made from year to year in making aviation one of the great forces in the modern world. Yet such conquests are being made. Today, for example, the total length of air routes operated throughout the world is almost 40,000 miles, of which 21,000 miles are in Europe, and about 10,000 miles in the United States. The annual traffic over these routes has increased from about 1,000,000 miles flown in 1919 to about 13,000,000 miles in 1926.

The Imperial Airways Limited of Britain, subsidized by the British Government, maintain and operate regular daily services between London, Paris and Zurich; London, Brussels and Cologne; London and Amsterdam; and a weekly seaplane service between Southampton and the Channel Islands. They have now completed two and a half years of the period of ten years during which they have a monopoly of subsidized British air transport in Europe. During this period they have flown approximately two and a quarter million miles and carried 55,000 passengers and 2,000 tons of goods with only one serious accident.

Not has Canada lagged in aviation. Today the use of aviation in forest conservation, aerial survey and reconnaissance, and transportation in the remoter parts of the country is well established. The pioneer work done by commercial organizations and the Province of Ontario and Quebec and the Dominion Government, has been successful. Forest type sketching and reconnaissance from the air are accepted today without question as being quick, accurate and cheaper. Since this work was first tried in Ontario and Quebec in 1920, 125,000 square miles of forest land have been mapped by this method. Fire detection and suppression by air are accepted in unsettled areas, while suitable landing places can be found, as the only means of efficient protection, 160,000,000 acres of forest in Ontario, Manitoba, and Alberta are now under a system of protection by air.

Aerial photography for mapping purposes has made tremendous strides. In 1926, 70,000 square miles were photographed and today no surveyor willingly undertakes the mapping of any district without the aid of aerial photographs.

In addition to the forest, survey, exploration and mining services using aircraft, the Fisheries Branch is directly interested in their use in protection work on the Pacific coast; the Department of Agriculture realizes their possibilities in fighting insect pests which do untold damage each year to the crops and forests of the Dominion, and the Department of Customs use them to advantage in prevention of smuggling. Practically every engineering service can use aerial photography or air transportation to advantage.

Flying has not supplanted the ground forces in any of these activities, but they find in aircraft an instrument which increases the efficiency of their work to an extent unbelievable a few years ago. It may therefore be stated with confidence that those phases of aviation may be expected to grow naturally. The field is immense and covers the whole north country beyond the narrow strip along our southern border now served by the railways.

The successful operation of air transport lines in the United States and Europe is undoubtedly having its effect on public opinion in Canada and before long the problem of the establishment of similar facilities for fast communication by air must be faced. Our railways, roads and waterways, telephone, telegraph and radio services compare favorably with similar services in any part of the world. Without them our present standard

of living could not be maintained and our trade would inevitably languish, says the Journal, Ottawa. There is no reason to suppose that in the air Canada will lag behind other nations and that the establishment of through routes for travel and communication by air will not follow. No country provides a better field for air communications. The distances between the cities are great, and the climate favorable for flying. Experience shows that with suitable equipment, winter presents no insuperable obstacle to the continuous operation of air routes.

A Charming Frock For the Junior Miss

This chic frock is extremely smart and quite easily fashioned. The skirt has gathered side sections, and the V neck may be worn with or without the shaped collar. There are long sleeves gathered to narrow wristbands, or short sleeves with pointed cuffs, and the sides of the bodice are adorned with buttons or small bows of ribbon. No. 1654 is in sizes 8, 10, 12 and 14 years. Size 10 requires 2 1/2 yards 39-inch, or 1 1/2 yards 51-inch material, and 3/4 yard additional 39-inch contrasting for View B. Price 29 cents the pattern.

### How To Order Patterns

Address—Winnipeg Newspaper Union, 175 McDermott Ave., Winnipeg

Pattern No. .... Size .....

Town .....

Life is a great county fair . . . . . innumerable onlookers, judges, exhibitors . . . . . Three days, four days, or a week—and it is over; the procession separating at crossroads, one losing sight of another as the great countryside absorbs them once more into itself.

### Threatened With Extinction

Salmon Catch On Fraser River Is Rapidly Decreasing

The salmon fishing industry on the Fraser River, British Columbia, is threatened with extinction. The pack this year so far amounts to only half of that of last year to the same period. John P. Babcock, assistant commissioner of fisheries, on returning from his annual trip of inspection to the streams of the Fraser system above Hell's Gate, "where once the sockeye salmon spawned in millions," stated that "it was like hunting for a needle in a haystack. In most sections I did not see or hear of a single sockeye this year." He pointed out that four years hence, when the cycle of sockeye existence is filled and the fish which should be spawned this year and would return to spawn in their native waters, there will be none for the nets of the fishermen or the kettles of the canners.

The mighty family of Pacific salmon are still a mystery notwithstanding years of study. The catch in Alaska has also been reduced about 50 per cent, and the American authorities there are at a loss to know why the salmon failed to put in their usual appearance on the fishing grounds. So far as British Columbia is concerned, officials, canners and fishermen agree that fishing is too intensive and that the only remedy is to curtail operations. But governmental action is necessary to make any such agreement effective. "We cannot reduce the Fraser sockeye fishery unless we get the United States to co-operate in the prevention of over-fishing," says the Vancouver Province. "But we do control the fishing which takes toll of the other salmon streams of this province, and there we should see that the lesson of the Fraser is learned and that the tragedy of the Fraser is not repeated."—Toronto Mail and Empire.

### Baronet's Daughter Is Aerial Taxi Driver

Believes There Is Great Opening In Commercial Flying

For \$12 per hour you can hire the daughter of a baronet to fly you any place you want to go in her baby airplane. She is Miss Sicele O'Brien, daughter of Sir Timothy and Lady O'Brien, and has just won her "B" certificate in London, entitling her to do commercial flying.

She has bought her own "moth" airplane and is going to ply for hire as an aerial taxi driver. She had always wanted to fly after having been a keen motorist, and when the London Light Airplane Club was formed a couple of years ago she was one of the first to join.

"I hope to be very busy," she said, "when the weather becomes better, taking pupils and doing cross-country trips with passengers and cargo. There should be a great opening in commercial flying in this age of hurry and bustle. Lots of other girls ought to learn to fly, and I am surprised that more women don't take it up."

Miss O'Brien is the second woman to get her "B" certificate there, Mrs. Elliott Lynn, being the first.

### Take Your Choice

Shop Girl: A pair of silk stockings, sir? Certainly. Do you prefer beige, pale fawn, champagne, pearl blush, atmosphere, froth, grain, sawdust, melon, straw, oyster, bleached mauve, gunmetal, moonlight or shadow?

Young man: I—I never thought of that. Perhaps I'd better buy her a bracelet instead.

## Dominion's Mineral Output May Shortly Outrank The Wheat Crop's Annual Value

### New Pointers On Meilleur Cheese

Milk Used Must Have High Percentage Of Butterfat

The process of the manufacture of Meilleur Cheese has become fairly well standardized and the results now obtained make it a product of the first quality among full-flavored cheeses. The whole process of making it is described in a pamphlet distributed by the Publications Branch, Department of Agriculture, Ottawa. New information concerning the cheese has been secured through recent experiments. It is now definitely known that the quality of the product is greatly affected by the percentage of butterfat of the milk from which it is manufactured. When cheese was made from separate lots of milk testing 3.3, 4.2, and 5.6 per cent., all was of excellent quality and flavor, but with the increased percentage of fat the quality improved, in fact the flavor of the cheese made from the higher-testing milk was particularly pleasing, having a richness and delicacy sufficient to indicate the desirability of utilizing a high-testing milk to obtain the very highest results with Meilleur cheese. Another fact ascertained is that the cheese may be held from three to five months after it is sufficiently cured for use provided that the atmosphere is kept humid. The flavor improves with age when drying out does not take place.

### Arctic Still Unsolved

But Tide Of White Settlement Will Eventually Set Northward

Mysteries of the Arctic are still unsolved, declared Dr. R. N. Rudmose, section of the British Association. Brown, president of the geographical while speaking in London recently. He declared that the existence of an Antarctic continent is still based on circumstantial evidence, that Enderby Land, with more than 3,000 miles of hypothetical coast line, has never been searched for since Hiscoe found it in 1831, and that no ship had ever penetrated the western shores of Weddell Sea. He prophesied that eventually the tide of white settlement will definitely set northward, even to the Arctic Seas.

### First Reindeer Round Up

Estimate Places Number In Alaska At Thirty Thousand

Preparations are being made at Akia, Alaska, for the first round-up of the estimated 30,000 reindeer in the Muskokwim River herds, to determine the exact rate of increase in the deer herds in this region.

Since reindeer were introduced into Alaska, from Siberia, 35 years ago to ward off threatened starvation among the Eskimos, the rate of increase has far exceeded the demand. Government officials have predicted that Alaskan ranges will be overstocked with the animals in another ten years unless reindeer meat finds a growing market in the U.S. during that time.

Eggs sent from China 50 years ago were served at a recent banquet of the Zoological Society of Ireland, and the members pronounced the flavor of the hen fruit delicious.

Following close on the heels of the phenomenal growth of agriculture and forest industries, a third great form of development has more recently played an equally effective role in revamping Canada's economic structure. Mining development has been responsible for some of the most striking changes that have come over the Dominion in the last quarter of a century.

Not so many years ago Canada's mineral output was dominated by the extreme east and the extreme west. Nearly 70 per cent. of the total mineral output in value came from Nova Scotia, British Columbia, and the Yukon. Today older mining areas have developed remarkably and are stronger than ever. It is the great series of interior provinces that now hold the leadership. Ontario has matched and surpassed British Columbia's magnificent record of mining progress. Nova Scotia is rivalled by Alberta and Quebec. And Manitoba, New Brunswick and Saskatchewan, though less advanced in actual development, all possess mineral resources of real promise.

With this great spreading out of mining activity into new regions, there has, of course, been an immense rise in the annual value of Canada's total mineral production. In 1926, the aggregate output reached the record figure of \$241,000,000 and unless all signs fail this new record is not likely to last very long. As a matter of fact it is quite within the realm of possibility that the Dominion's annual mineral output may, within a limited measure of time, outrank the Canadian wheat crop in a financial way. Such a suggestion would have been almost unthinkable ten years ago; but if the mining industry continues to advance as it has done in the last 15 years, this possibility is more than likely to become an actual fact.

The rise in the value of mineral production, however, is not the most important effect of the progress of Canadian mining enterprise, says the Natural Resources Intelligence Service of the Department of the Interior at Ottawa. The more important and more welcome effect is found in another direction—in the fact that mining development has redeemed great acres of Canada which for generations had seemed to possess little economic value. Northern Ontario, once the despair of Canadian statesmen owing to the great stretch of rocky country which it interposes between the agricultural regions of eastern and western Canada, is now the seat of the Dominion's greatest mining industries. This same type of territory extending into Manitoba, Saskatchewan and Quebec affords promising prospects for the establishment of great mining enterprise in those provinces.

Without mentioning in further detail the particular fields of new mineral development that have opened up in the last 25 years it may be said that mining progress during that period has been responsible more than any other factor for creating clear across the Dominion a continuity of development which a generation or so ago even the most hardy optimist could scarcely have hoped for.

"I can't give you steady work, but I might find you some odd jobs." "That'll suit me, boss. The odder the better."

"What sort of an animal is that?" "A centaur." "And are there none today?" "No; the last died from a fall from his horse."—Buen Humor, Madrid.

## THE STORY OF SIXTY YEARS

Scarcely anything could typify the advance in transportation which has occurred in Canada in the 60 years of Confederation than this photograph which shows a locomotive of the 1867 vintage compared with one of the giant 1927 passenger model locomotives of the Canadian National Railways. This Goliath of the road is designated as the 6100 class and it is the largest passenger locomotive in the British Empire. Because of the year in which it was built this locomotive has been named "The Confederation."

BY NELLIE L. McCLUNG

COPYRIGHT, CANADA, 1925

## CHAPTER X.—Continued.

"And now, girls, for a lovely surprise! There is a beautiful lady in the city who is going to have a tea in her own home for us." She thinks of us, living away up here on the hill, and wants to make us happy. So next Tuesday afternoon she will open her lovely home, and kind ladies will come and bring gifts and money, all for us. Shouldn't we be very happy over it, and very grateful?"

"Good eats! We'll go." It was Rose Lamb who spoke for the company, gathering up the feeling of the meeting in this one crisp exclamation.

"Oh, Rose!" Mrs. Wymuth's mouth almost trembled—"Rose, how could we be invited—all of us, I mean. You should not speak so!"

"Ain't she got room?" Rose persisted; "there's only twenty-nine of us."

"Go upstairs at once, Rose," Mrs. Wymuth commanded.

Rose started towards the hall, but stopped at the door to explain her position. "It's a swell way to hold a tea for us and not ask us!"

Miss Lamb's periodic excursions into the world of action made her a sort of social directory for the girls. At once every girl felt she had been slighted.

"Rose! At once!"

Rose sauntered leisurely up the stairs. Relieved of her disconcerting presence, Mrs. Wymuth resumed: "And, as is usual in these cases where teas are held in aid of a Home, there will be a lovely basket sent to us the next day and the goodies it contains will be given to the girls who have the most honor marks."

The tea was held. The morning paper featured it. "Wednesday claimed Mrs. St. John for one of its most charming hostesses at a delightfully appointed tea in aid of the Girls' Friendly Home." The paper was quite correct—she was a charming hostess, and the appointments were perfect. The oaken door had a card on the outside which said "Please walk in." On a mahogany table reposed a sweet grass basket, tied with crimson ribbon, to receive the donations. The ladies came in gaily colored throngs, high-heeled, silk-lined, perfumed. Mrs. St. John, who stood inside the drawing-room, received her guests, in an American Beauty cut velvet dress. The roses on the table, in a bowl sitting on a mirror and so doubling their number, were of the same shade. The table was garlanded with smilax and "the color scheme was carried out throughout."

Ladies came in swarms from the drawing-room to be served in the dining room, and exclaimed prettily over the table. Very slim young ladies served, scantily clad in dresses which

were low in the neck, high in the hem, and niggardly in width. There were stuffed olives, rolled sandwiches tied with baby ribbon, tiny biscuits,—faint replicas of the honest article of that name that we have known and loved—blanched almonds, more sandwiches, phantasies filled, in harmony with the color scheme.

Then the feast! No one cut the fees—they did not need to be cut, they were moulded. Pink roses they were set in the palest of green leaves. The guests were rapturous. Angel cake, white and of fairy lightness, and then white creams in disks, flavored with peppermint; rose disks, flavored with wintergreen, more almonds, more disks. "Really, I shouldn't—I am dieting—but these are so delicious! I don't believe it makes one bit of difference."

Then goodbyes to the charming hostess, who was still at the entrance to the drawing-room, and away.

You see, the paper was right—it was "a perfectly appointed tea." There would not have been one jangling note in its perfect harmony if Miss de Forrest had not come. She had read of it in the paper and decided to come, and it so happened that she came at five o'clock, when the rooms were crowded. Miss de Forrest was a large woman, deep chested, deep voiced, dominant. When she spoke, her voice boomed.

"I am so glad you are interested in the Home," she said to her hostess, "it is high time someone became interested. I think it is a wicked place . . . innocent girls and gully ones . . ."

Miss de Forrest's voice carried over the rising and falling chatter—hushing it at last as the women became conscious that someone was speaking.

"Now, take the case of that young Finnish girl, Helmi.—Some of you know her. She is an innocent girl, clear-eyed, truthful, lovely. Do you know the case? She is hiding someone and will not tell who sent her for the heroin. Rather a noble thing too, in this dull, selfish age. But she's hounded to death by the matron to make her tell. It's just a question of how long she can hold out. Now, think of that lovely girl sleeping in the same room and eating at the same table with some of the worst girls in town. And when she gets out it will always follow her that she had been in the Girls' Friendly. I went to the matron and said some of these things, and so I got the blue envelope from the Board. The Board are all men—the solid business men we hear so much about. Some of you women should be on the Board and try to get some sense into its wooden head. I know now the origin of the word "Board." That's how to help wayward girls, though I admit it's a lot more fun to go to teas and eat olives on their behalf."

The women gathered around Miss de Forrest. Miss Abbie, in her excitement, left her post at the table. "I know Helmi is a good girl," she exclaimed, "even if she did burn the stew that I left simmering on the stove."

Eva St. John spent a troubled night. She hated Miss de Forrest, great hulking thing, with a voice like a fog horn,—what right had she, when everything was going so beautifully, to burst in like that and spoil everything? What good did it do a person, anyway, to try and do right? "Now, here I am," she thought, "more upset than ever, and if that big raw-boned valentine had only stayed away it would have been all right." Out of her troubled thoughts came one resolve—she must see Helmi.

"We are gaining a foothold, Edgar," Mrs. Wymuth told her husband that night. "People are beginning to realize that the Home is being placed on a new footing. Mrs. St. John is greatly interested in the work here, and asked so kindly about our methods. She pleaded for that dreadful Finn girl, and urged me to be patient with her. She seemed quite distressed when I told that she had actually struck you. Perhaps we had better not keep her away from her lessons. Mrs. St. John asked if she might not take her out driving some day, and I wouldn't like her to know. Yes, I think I shall reinstate her in her

Red Rose Tea, now packed in the bright, clean Aluminum package, is completely guaranteed. You can try it without any risk. Order a package from your grocer. Use any portion of it and if you are not entirely pleased return it and no charge will be made.

ST

classes. Mrs. St. John spoke so very kindly of her. She said she would try to get Helmi to confess to her."

The winter passed not unhappily for Helmi, though she was troubled to account for Mrs. St. John's not coming to see her. There must be some reason for her friend's silence. Anyway, in a year she would be free. Rose Lamb had told her that when she was eighteen they could not keep her any longer. She would be eighteen in March, and then she would go back to Miss Abbie and the girls at the church, and take up again the happy life of the Club. In the meantime there were a lot of words to be learned and sentences to be written.

At Christmas Mrs. St. John brought presents for all the girls—twenty-nine white parcels, tied with red satin ribbon, held down with polka-dot stickers, each one containing a deeply religious book in chaste white and silver binding, with water lilies entwined in the letters of the title. She made a face as she wrapped the first one, for the shuddering thought would intrude itself. "How would I like to get this when I was expecting a real present." The fact that she got a bargain on them because they were slightly shelf-worn had turned the balance in their favor, for Mrs. St. John, like most people who can spend money lavishly on themselves, was a marvel of thrift and shrewdness where other people were concerned.

The white and silver books which went to Helmi was entitled "He Is Faithful that has Promised," and the first promise, richly illuminated by roses and violets and illustrated by a story of fidelity, was "I will take care of you." This she had underlined, adding "Never forget this, dear Helmi."

When Mrs. Wymuth unrolled the book (it was part of the discipline of the Home that all letters and parcels were to be opened by the matron), she was tearful with happiness, and declared to her husband that dear Mrs. St. John, though she really had not made a profession, was not far from the Kingdom.

(To Be Continued.)

Ready-made Medicine. — You need no physician for ordinary ills when you have at hand a bottle of Dr. Thomas' Electric Oil. For coughs, colds, sore throat, bronchial troubles, it is invaluable; for scalds, burns, bruises, sprains it is unsurpassed; while for cuts, sores, and the like, it is an unquestionable healer. It needs no testimonial other than the use, and that will satisfy anyone as to its effectiveness.

## Edmonton Canning Factory

The Border Canning Co., of New Westminster, B.C., has secured six lots at Edmonton, on which to erect a plant which will be ready to handle the 1928 fruit and vegetable crop.

## Minard's Liniment for Toothache.

A man who appeared at a police court could not be persuaded to stop talking. Eventually, however, the magistrate managed to get in a short sentence.

## FACE AND ARMS BURNED BADLY

Large Pimples Broke Out. Cuticura Heals.

"My trouble began with an itchy sort of feeling all over my arms and face. Large pimples broke out on my face and were so painful that I could hardly bear them. My face and arms burned badly and looked a fright. I could not go anywhere I was invited on account of the trouble.

"I tried other remedies but they did no good whatever. I read an advertisement for Cuticura Soap and Ointment and purchased some, and in a short time I was healed." (Signed) Mrs. Ben Cosens, 202 Homewood Ave., Hamilton, Ont.

Cuticura Talcum is cooling, soothing and comforting to tender, aching, burning feet.

Sample Pack Free by Mail. Address Canadian Depot: "Stanhope Ltd. Montreal." Price, Soap 50c. Ointment 50c and 10c. Talcum 25c. Cuticura Shaving Stick 25c.

## Bought Radium With Legacy

New York Hospital Paid Large Sum For Seventh Of An Ounce

A few months ago a rich man died in New York and left \$250,000 to one of the hospitals in that city. How do you suppose the trustees spent a part of that great sum? They bought four grams of radium—a seventh of one ounce—not so much as would make half a teaspoonful! This wonderful substance is to be used in the treatment of cancers and other malignant growths, in surgery, and in the relief of diseases that are actually incurable. Probably no other hospital in the country owns as much as four grams of radium; most of them own none, and most of those institutions that use it have to borrow the tiny amounts that produce such extraordinary results.

Four million dollars a pound! That indicates the rarity of this singular element, which is so beneficent in the hands of the physician, and which has supplied the key, so geologists believe, to the riddle of the cosmic process. Each gram of the four in the New York hospital is continually discharging 213,000 billion particles of radium emanation every second, yet so tremendous is the energy locked up in this white powder that it will continue its invisible bombardment for more than two thousand years before it has exhausted itself. And then what is left will be hardly distinguishable from what we know as lead!

## Little Helps For This Week

O Lord, I am oppressed; undertake for me.—Isaiah xxxvii, 14

Being in straits I cry.  
Lord, make a way!  
Open a door for me:  
Help me, I pray!  
Gold, Thou hast endless store;  
Strength, all I want and more.  
All hearts are in Thy hand,—  
Nothing can Thine withstand;  
Lord, look and give command.  
—Anna Warner.

It is better to go at once to Jesus with our difficulties. We are worried and perplexed. Why not tell Jesus first instead of running with our griefs to our friends? However willing they may be, they are often unable to help us. The Christian who has learned to lean on Jesus for counsel and comfort has learned the secret of the Lord—"the peace that passeth understanding."

## Ocean Landing Fields

Floating Seadrome On Atlantic Ocean To Be In Operation Before Spring

The dream of ocean landing fields strung across the Atlantic may reach a large scale experimental stage by next spring. B. R. Armstrong of the Dupont Company, is proceeding with plans for construction of a large model of his floating seadrome, which he hopes to have in operation before next summer.

Armstrong proposes placing the model in the Atlantic about 500 miles east of New York to study the effect waves and storms will have upon it. In appearance it is a platform lifted above the crests of the largest waves by a frame work resting upon submerged pontoons.

Armstrong's plan is to construct about five seadromes and string them at 400-mile intervals across the Atlantic. Ship and bridge building corporations are said to be tendering prices for the seadrome.

He: "Do you believe that anyone beside you knows of our secret engagement?"

She: "Yes."

He: "Who, in heaven's name?"

She: "You!"—Kasper, Stockholm.

## Head Colds Relieved with Vapors

## Dominion Reindeer Co.

The Dominion Reindeer Co., with head office at Vancouver, has opened an office in Saskatoon. It is proposed to move the company's herd from Alaska to the new pasture between Great Slave Lake and Hudson's Bay. A sequel to this will likely be the opening up of a packing plant and canning factory at Saskatoon.

## A VERY RELIABLE HOME TREATMENT

How Weak, Run-Down People Can Obtain Relief

Among the many remedies offered for the maintenance or restoration of health and strength, there is none can compare with Dr. Williams' Pink Pills. Most ailments are due to poor, thin blood. Dr. Williams' Pink Pills have a specific action on the blood, making it rich, red and pure. Through this richer blood the tissues of the body are better nourished, and the functions of the body better performed. Anemic sufferers, weak, languid and nervous people speedily find new health and strength through the use of this medicine. This was the experience of Mrs. John Armour, South Monaghan, Ont., who says:—"I am one of the many thousands who have regained health through the use of Dr. Williams' Pink Pills, and I take this opportunity of saying a word in praise of this splendid medicine. Before beginning the use of this medicine I was pale and badly run down. I found it difficult to do my housework and was tired and breathless at the least exertion. I had tried several medicines without benefit, and finally decided to try Dr. Williams' Pink Pills. Soon I began to feel better, sleep better, and eat better, and found my weight increasing. In a word I felt like a new person. I have since recommended the pills to others who have taken them with equally good results."

Try Dr. Williams' Pink Pills for anaemia, rheumatism, neuralgia, nervousness. Take them as a tonic if you are not in the best physical condition and cultivate a resistance that will keep you well and strong. Get a box from the nearest drug store and begin this treatment now.

The pills are sold by all medicine dealers or will be sent by mail at 50c a box by writing The Dr. Williams' Medicine Co., Brockville, Ont.

## Mineral Discovery

An important discovery of antimony is reported to have been made in Northern Manitoba.

No need to suffer with corns, or to run the risk of paring them. Remove them surely and painlessly with Holloway's Corn Remover.

Rusting of iron and steel in the world in the past 12 months is estimated to have caused a loss of \$2,500,000,000.

## Make Money at Home

In your spare time hand-coloring Christmas Greeting Cards, fascinating and highly profitable hobby, with unlimited prospects. With our instructions children can do it. Write for Free Information to Dept. 18, The Merton Co., 2651 Walker Avenue, Edmonton, New Westminster, B.C.

## BOYS &amp; \$2.00 Given NO WORK GIRLS \$2.00 Given JUST FUN

Simply sell 50 Sets of Our Famous Christmas Seals for 10c a set. When sold send us \$1.00 and keep \$2.00. We trust you until Christmas.—St. Nicholas Seal Co., Dept. 639 W.N.U., Brooklyn, N.Y., U.S.A.

A 1 OFFER TO INVENTORS. SEND for our free list of inventions wanted, and free advice. The Ramsey Company, International Patent Attorneys, 274 Bank St., Ottawa.

## DYEING AND TINTING

are so easy and perfect IF you use the same kind of dyes Professional Dyers use. Dyes that are put up in highly concentrated, finely powdered, soluble form. No work to dissolve them. Never any shaving, scraping or crumbling them up. They are—

## DY-O-LA DYES

THE NEW FRENCH REMEDY. No. 1 THERAPION. No. 2 No. 3 No. 4 for Bladder Catarrh. No. 5 for Blood & Skin Diseases. No. 6 for Chronic Weakness. Sold by leading chemists, or return mail from Dr. LeClair Mod Co. 1000 St. Louis St. N.Y.

## WOMAN COULD HARDLY WALK

Mrs. Horn Tells how Lydia E. Pinkham's Vegetable Compound Restored Her Health

Hamilton, Ont.—"I have taken Lydia E. Pinkham's Vegetable Compound and would not be without it now. I had a female trouble so badly I could hardly walk and I was all run-down and could hardly get around to do my housework. I would be in bed three or four days at a time. I was told by a friend to try your Vegetable Compound, I did, and by the time I took two bottles I was beginning to get around again. I took ten bottles in all, and now I am all right again and doing my own work. I have six grown-ups to work for, so I have plenty to do. I also used Lydia E. Pinkham's Sanative Wash, and I think it is good. But I owe my health to the Vegetable Compound, and I think if more of it was used women would be better off. I would not be without it if it cost much more."—Mrs. NELLIE JAMESON, 805 East Cannon Street, Hamilton, Ontario.

Do you feel broken down, nervous and weak sometimes? Lydia E. Pinkham's Vegetable Compound is excellent to take at such a time. It always helps, and if taken regularly and persistently will relieve this condition. c

lin Light Six car to Mr. Castig-  
lione.

The new home built and now oc-

Canada's "Agricultural Jubilee"  
is to be celebrated this year accord-  
ing to an announcement made by the  
Hon. W. R. Motherwell, minister of  
agriculture, who has taken the mat-  
ter up with various provinces. It  
has been decided to hold the cele-  
bration in connection with the Royal  
Winter Fair at Toronto, November  
16 to 24 as the new building erected  
there jointly by the Dominion and  
Ontario Governments offer a splen-  
did setting for this event.In spite of the milk embargo  
Canada's exports of milk and cream  
to the United States have been well  
above the average this year, accord-  
ing to Washington figures. The  
total exports of milk and cream,  
chiefly the latter, show an increase  
of 34,000 gallons during the seven  
months' period January to July. The  
exact figures, 1,096,798 gallons com-  
pare favorably with 1,062,756 gallons  
in 1926 and 1,055,161 gallons in  
1925.cupied by Mr. Shields, is now ready  
and is a great asset to the town.The first snow storm arrived on  
Friday night but the snow did not  
stay. Bad storms are reported from  
the north.Charles McMann, 7 miles S. E.  
of Carbon, suffered a fire on Thurs-  
day at 5 p.m., and the stable and  
barn was a total loss. 500 lbs. of  
wool was also among the losses.

The rumors are that the laying

of the steel on the line between  
Acme and Carbon will start next  
week, and if the weather keeps fine  
we might see the first railroad en-  
gine in Carbon before long.Women may not be deep thinkers,  
but they are generally clothes ob-  
servers.I caught my husband kissing the  
maid yesterday.Good heavens, what did you do?  
I made him buy me a new dress.  
And you fired the girl?

Oh, no I need a new hat too.

*I'll tell you why I'm going to  
buy a Westinghouse—*"Those new Westinghouse Sets are great! I was over at Bill's  
last night to hear the radio he's been talking so much about.  
Oh boy, its some set. There's as much difference between it and  
an ordinary set as there is between this car and my old bus.""When you think it over, it's just what you'd expect from  
Westinghouse. They were the pioneers of both Alternating  
Current and Radio so you'd expect them to build the most  
advanced models operating on the lighting circuit.""And another thing, Westinghouse have selected the most  
competent radio merchants in town as Westinghouse Dealers."We will gladly demonstrate the 1928 Westinghouse models  
and explain the many improvements that make them better.**S. J. GARRETT'S GARAGE** Carbon, Alberta**Westinghouse**

PIONEERS IN RADIO

**Famous Indian Treaty Opened New Empire for Settlement**1.—Chief Duck Head, Chief of the Blackfeet and descendant of Chief Crow Foot. 2.—Monument erected to memory  
of Chief Crow Foot. 3.—Site of old Chief Crow Foot's lodge. 4.—Decorating the grave of Chief Crow Foot.Fifty years ago, or in the late  
summer of 1877, only a few days  
before the first locomotive engine  
entered Western Canada, the most  
important treaty between the Cana-  
dian Government and the Indians of  
the plains was signed.It was treaty No. 7, the one that  
brought peace to the great plains and  
threw open a new empire for settle-  
ment. The historic document was  
signed on the banks of the Bow River  
just east of Calgary and near the  
Canadian Pacific Railway station of  
Cluny. It is, possibly, a greater  
tribute to the red men than to his  
white brothers that the terms of the  
treaty have been lived up to in every  
detail.On September 22, 1927, the fiftieth  
anniversary of the memorable oc-  
casion, hundreds of people from all  
walks of life, representatives of  
various tribes of Indians and officers  
of the Royal Canadian Mounted  
Police gathered at the historic spot  
for an impressive memorial service  
where a cairn and tablet had beenerected. Mrs. James F. Macleod,  
widow of the late Colonel Macleod,  
commissioner of the old Royal North  
West Mounted Police, unveiled the  
tablet. It was Colonel Macleod who  
was successful in securing the signing  
of the treaty 50 years ago. The cairn  
containing the tablet is in close  
proximity to the grave of Chief Crow-  
foot, who in signing the treaty flung  
open the great plains for settlement,  
peaceful settlement, by the whites.  
Mrs. Macleod and her son Norman  
placed wreaths on the nearby grave.  
Stonys, Crees, Blackfeet, Peigans and  
Sarcees were represented by chiefs at  
the ceremony. Hon. R. B. Bennett,  
K.C., M.P., spoke at the gathering,  
tracing the incidents that led up to  
the signing of the treaty. He also  
quoted from the speech delivered at  
the time by Chief Crowfoot as fol-  
lows:"While I speak, be kind and  
patient. I have to speak for my people  
who are numerous, and who rely on  
me to follow that course which in thefuture will tend to their good. The  
plains are wide. We are children of  
the plains; it is our home and the  
buffalo has been our food always.  
I hope you look upon the Blackfeet,  
Blood and Sarcees as your children  
now and that you will be indulgent  
and charitable to them.""They all expect me to speak now  
for them and I trust the Great Spirit  
will put into their breasts to be a  
good people — into the minds of the  
men, women and children and their  
future generations.""The advice given me and my  
people has been very good. If the  
police had not come into the country,  
where would we all be now? Bad men  
and whiskey were killing us so fast  
that few, indeed, of us would have  
been left today. The police have  
protected us as the feathers of the  
bird protect it from the frosts of win-  
ter. I wish them all good, and trust  
that all our hearts will increase in  
goodness from this time forward. I  
am satisfied. I will sign the treaty."
